

Shark Encounter

Hello Shark Diver,

Congratulations on booking your Shark Encounter, you can't dive with larger sharks anywhere else in Europe! We can't wait to take you on the experience of a lifetime. Please read this letter carefully, as it contains important information for you and your spectators.

What you can look forward to

We want you to have an unforgettable experience and we have designed the Shark Encounter to include everything you need. Two hours of training is provided with our Professional PADI Instructors and will count towards becoming a fully certified PADI Scuba Diver. The training is split into two sections; classroom and practical. In the classroom section you will be looking at the theory and safety aspects of diving as well as getting to know the animals you're about to dive with. The practical section includes getting used to the equipment and learning the basic skill required for the dive. You will train in a group of six and then have a thirty minute dive in pairs.

Share your experience

As part of your Shark Encounter you are entitled to two free spectators. Additional spectators are welcome also and will be charged at a reduced rate upon entry to the aquarium. Your spectators will be looked after, they will be taken on a tour of the aquarium while you are going through your training and then will watch your dive through our 70m underwater viewing tunnel.

The Dive

Your shark encounter will take place in our Caribbean reef exhibit; nowhere else in Europe can offer you a larger of species of shark to dive with. Some of the species of shark you may encounter in our tank are Sand Tiger Sharks, Nurse Sharks, Zebra Sharks, Black Tip Reef Sharks, Bamboo Sharks, Southern Atlantic Stingrays and various other species of fish.

Upon arrival and what you require

You will be required 15 minutes prior to the start of your encounter where you will be met by one of our PADI instructors who will go through all your documentation. Please ensure you bring with you the following forms if you have not already emailed them to us; **PADI medical statement, Dive Terms and Conditions** and **Disclaimer and Indemnity Form**. You will also need a swimming costume, towel, gear, and toiletries.

Diver Medical | Participant Questionnaire

Recreational scuba diving and freediving requires good physical and mental health. There are a few medical conditions which can be hazardous while diving, listed below. Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Diver Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your diving fitness not represented on this form, consult with your physician before diving. If you are feeling ill, avoid diving. If you think you may have a contagious disease, protect yourself and others by not participating in dive training and/ or dive activities. References to “diving” on this form encompass both recreational scuba diving and freediving. This form is principally designed as an initial medical screen for new divers, but is also appropriate for divers taking continuing education. For your safety, and that of others who may dive with you, answer all questions honestly.
